**ADVANCING YOUR FRONTLINE TEAM'S CAPABILITY**

**2025**

**"OUR COMMITMENT IS TO DELIVER RELIABLE SUPPORT SERVICES  
AND TECHNICAL SOLUTIONS TO THE MINING SECTOR"**

# Who We Are

## Our Company

---

Reliance EMSA was established with a clear mission to advance the capability of frontline teams operating in challenging environments, enabling people through innovation and technology to exceed your operational requirements.

Our focus is on improved worker safety, capability and developing the industry's best people.

Our goal is to become a leading and enduring strategic partner who understands your results matter.

# What We Do

## Our Service Offering

- **On-Site Technical Support:** Trades and engineering support with real time compliance and communication capability to site operations, ensuring you have the right skills and work management services for project delivery.
- **Engineering Asset Management:** Tailored asset management services to enable streamlined supply chains, reduce lifecycle cost, improve reliability and minimise downtime of your mining plant and equipment.
- **Engineering Design & Manufacturing:** Custom designed solutions for improved compliance and elimination of risks encountered supporting onsite fixed or mobile plant operations,

## Our Capabilities

### **On-Site Technical Support:**

Our experienced Trades professionals provide site support, ensuring your frontline teams can perform at their best under challenging conditions. Whether it's addressing a technical issue on-site or providing ongoing maintenance or shutdown support, we are a reliable resource for your team's success.

- Our team can integrate with yours to deliver real-time, hands-on solutions, providing a seamless transition of expertise and ensuring your operations continue with minimal disruption.

## Engineering Asset Management

At Reliance EMSA, we provide key asset management support to help maximise the value of your frontline assets which includes:

- **Asset management frameworks:** we provide framework policies and procedure for all phases of a assets life cycle, from pre-acquisition to end of life management and extension.

- **Life cycle assessment:** we help your organisation understand how to improve the performance of your assets from acquisition to renewal

- **Life cycle cost optimisation:** we gather data on your assets operating costs, identifying cost benchmarks to improve budgeting and cost control management.

- **Maintenance management improvement:** with our support, you can rest assured that your critical equipment is well-maintained, increasing safety, reliability and productivity.

## Engineering Design & Manufacturing

Reliance EMSA offers bespoke engineering solutions to improve the operational safety and efficiency of your mining teams. Our services include:

- **Custom Engineering Designs:** From tailored machinery to site-specific solutions, we design equipment that fits your unique needs. Whether it's enhancing machinery for specific tasks or creating field setups that support operational needs, we ensure everything is built to last.

- **Prototyping & Manufacturing:** We take your design needs from concept to reality with our prototyping and manufacturing services, ensuring that all products meet high standards of durability, functionality, and safety.

# Our Approach

## The Reliance Difference

We are committed to deliver reliable support services and technology solutions to the mining sector.

**“What sets us apart is our approach in understanding of the mining industry’s challenges and our ability to develop and implement solutions that directly improve the frontline worker’s capability to deliver for our clients”**

### **Innovative, Technology-Driven Solutions:**

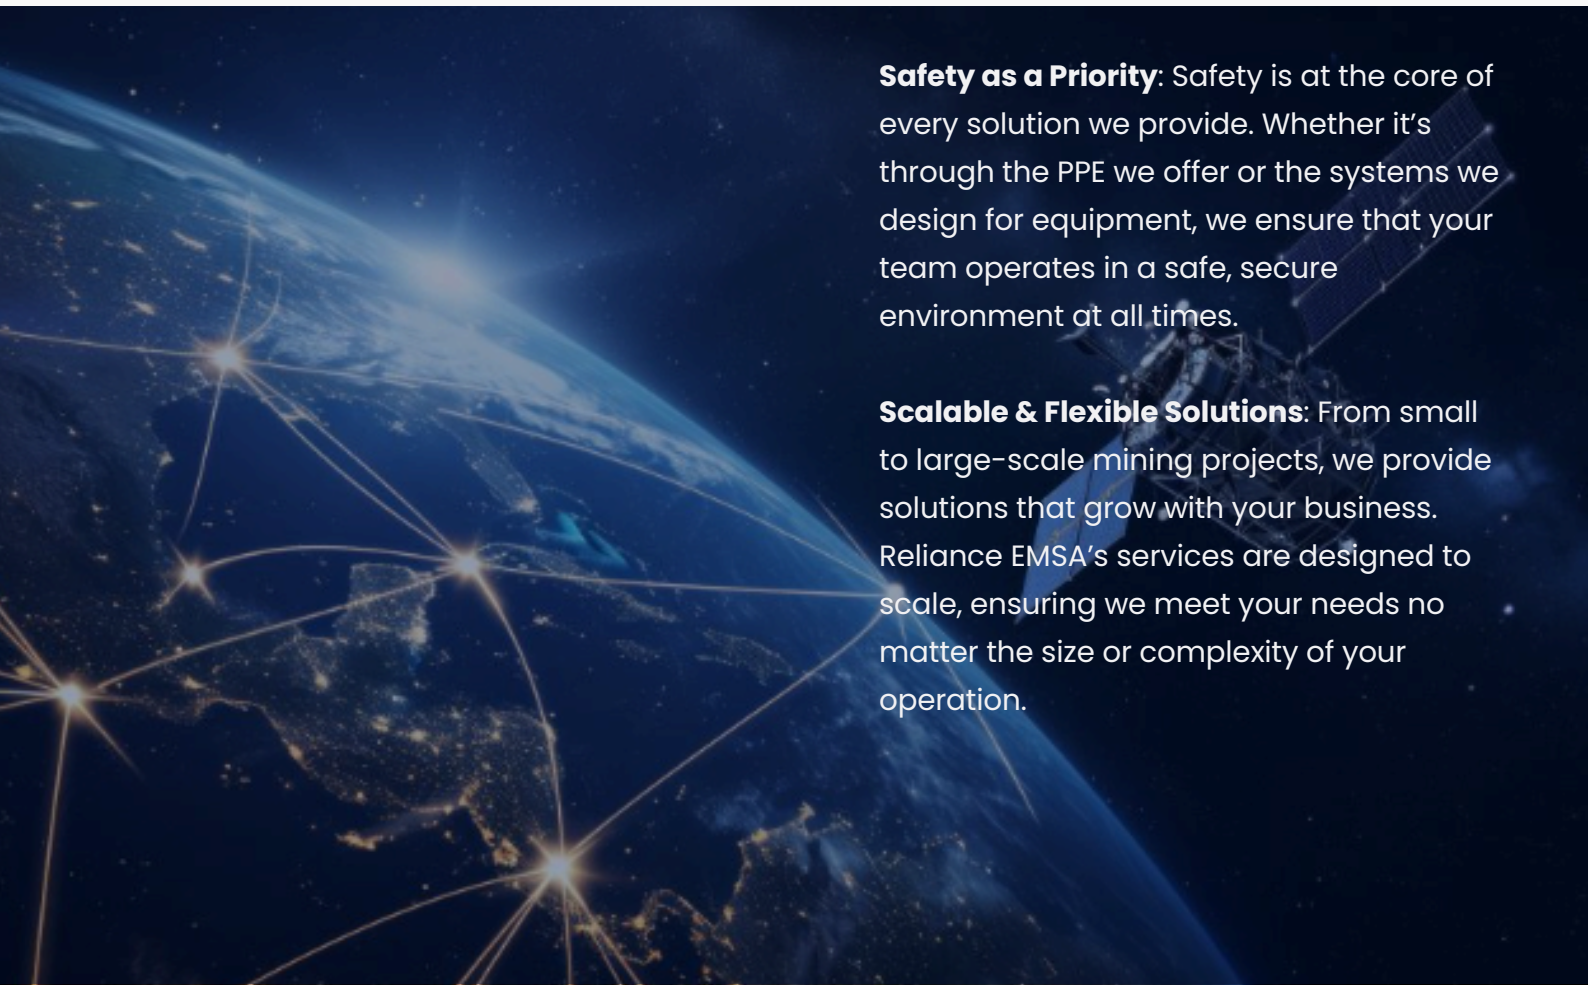

We utilise the latest in engineering and technological advancements to provide solutions that enhance efficiency, safety, and performance.

**Reliability You Can Trust:** Our track record of delivering results on time and on budget speaks for itself. You can rely on us to provide the right solution at the right time, without compromise on quality or performance.

**Collaborative Approach:** We don’t just deliver a service we work as an extension of your team, fully understanding your challenges, goals and needs. By aligning our solutions with your objectives, we create a collaborative partnership that drives success.

**Safety as a Priority:** Safety is at the core of every solution we provide. Whether it’s through the PPE we offer or the systems we design for equipment, we ensure that your team operates in a safe, secure environment at all times.

**Scalable & Flexible Solutions:** From small to large-scale mining projects, we provide solutions that grow with your business. Reliance EMSA’s services are designed to scale, ensuring we meet your needs no matter the size or complexity of your operation.

# Our Values

## Cooperation

- Working together for a safer workplace

## Accountability

- Maintaining our Integrity always
